LEONARDO L. SANCHEZ

JAVA FULLSTACK DEVELOPER

Software Engenieer

Systems Technologist, currently studying Systems Engineering, deepening knowledge of the best practices of web development and Architectures that allow better performance and ease when developing projects or making improvements, continuous and self-taught learning. Fullstack JAVA Developer (JAVA EE)
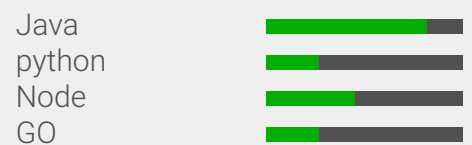

Experience

2021 - Present

Stefanini
Dev JAVA Fullstack, Bogotá
Development over existing applications and new applications in JAVA technologies

techs
SpringBoot BackEnd and in Angular and nodejs Frontend, both modular projects are deployed on Websphere 8.5 server. from IBM

2020 - 2020

Samtel Consultores Colombia
Dev JAVA Fullstack, Bogotá
Development over existing applications and new applications in JAVA technologies

techs
SpringBoot BackEnd and in Angular and nodejs Frontend, both modular projects are deployed on Websphere 8.5 server. from IBM

Competences

✔ **research**

✔ **Forward Thinking**

✔ **Technical Expertise**

Skills

Backend

Java
python
Node
GO

FrontEnd

Angular
react

CSS Frameworks

SASS
LESS

DevOps

Jenkins
Docker

2018 - 2020	**Inversiones gutierrez garcia y cia s en c**
	Dev JAVA, Bogotá
	Adaptive Front End support in the forcing for the
	visualization improvement on any device and screen, management of
	server and intermediate development on the backend
	techs
	Java Beans, EJbs, JBoos, Primefaces
2013 - 2018	**Mcc de Colombia. S.A.S**
	Dev Junior, Bogotá
	revision, maintenance of specialized software in the Aqueduct billing in municipalities and rural areas of Colombia.

Education

2019 - Present	**College/Systems Engenieer**
	Universidad Minuto de Dios, Bogotá
	Validation for reach the degree
